

Art Contract Agreement

This contract is a non legally binding document to ensure that all art members receiving payment from the MQP know how much they will be paid and what their exact responsibilities will be.

1. EXPECTATIONS

1a. Artists will be given their tasks on Mondays with the expectation they should try to get them done by the end of the week. It's ok if things run over time, life happens but please try to get them in.

1b. Artists should try to keep people updated on their progress as much as they can. Unlike the 4099 class and Irene we can't talk to you guys in person which makes it harder to plan out tasks since we won't know when certain things will be done. If you can make the 4pm meetings Mondays and Thursday would be instrumental in helping us out with this.

1c. Artists will need to make sprint update slides for every Friday to recount their progress. This is also because these slides will be used to update our website's devlog.

1d. Artists will be credited not only on the game but on any art that they allow to be posted to our socials.

2. Payment

2a. Artists will be paid at minimum \$50 per academic term of work. This price can change based on workload and how much work they have already done.

2b. Payment will be through WPI which means at the end we will be putting you into contact with Allison Darling who will likely ask you to fill out some documentation to register you as sellers for WPI.
